

Lead Practitioner in Adult Care

Level 4

21 Months On Programme
Including 3 Months EPA

Overview

A Lead Practitioner provides direct care as well as guides and motivate a team to deliver exceptional service to individuals grappling with a variety of challenges; from physical and emotional to psychological and intellectual.

The Lead Practitioner in Adult Care aligns seamlessly with the multifaceted responsibilities of a Lead Practitioner, enriching apprentices' expertise through a blend of rigorous coursework and real-world application. Apprentices will emerge from this programme not just as a care provider but as a visionary leader, equipped with the tools to mentor colleagues, evaluate care delivery, and drive improvements in any setting, be it a residential home, day centre, or clinical environment. This apprenticeship maintains a focus on essential topics while allowing participants to see the interconnectedness of key principles in their role as lead practitioners.

Upon Successful Completion Of The Programme:

- Lead Practitioner in Adult Care Apprenticeship – Pass or Distinction
- Level 4 Diploma in Adult Care
- Level 2 English and maths (if not exempt)
